GENERAL SERVICES ADMINISTRATION			

Ms. Sandra Maynard
Naval Air Station
P.O. Box 5, Code 184SM
Jacksonville, Florida 32212-5000

Copy to: 184DL
184

Dear Ms. Maynard:

Reference is made to your application concerning the excavation of 0.25 acre of waters of the United States associated with the cleanup of contaminated site PSC#18 at Mulberry Cove, Naval Air Station, Section 44, Township 3 South, Range 26 East, Jacksonville, Duval County, Florida.

This verifies your proposal is authorized by Nationwide Permit numbers 38 in accordance with the enclosed copy of our regulations as stated in 33CFR Part 330, appendix A. This verification is valid until this nationwide permit is modified, reissued or revoked. All the nationwide permits are scheduled to be modified, reissued, or revoked prior to January 22, 1997. It is incumbent on you to remain informed of changes in these nationwide permits. We will issue a public notice announcing the changes when they occur. Activities which have commenced (i.e. are under construction) or are under contract to commence in reliance on this nationwide permit will remain authorized provided the activity is completed within twelve months of the date the nationwide permit expires, is modified, or is revoked.

A separate Department of the Army permit is not required providing the work is done in accordance with the enclosed drawings/information submitted, the conditions listed in 33 CFR Part 330, Appendix a, Subparagraph C, and any appropriate regional conditions (copy enclosed).

This letter does not give absolute authority to perform the work as specified on your application. The proposed work may be subject to local building restrictions mandated by the National Flood Insurance Program. You should contact your local office that issues building permits to determine if your site is located in a flood-prone or floodway area, and if you must comply with

the local building requirements mandated by the National Flood Insurance Program. If the local office cannot provide you the necessary information, you may provide this office a letter with a small scale map showing the location of the site, requesting a flood-hazard evaluation of the site. The request should be addressed to the Chief, Flood Control and Floodplain Management Branch, Jacksonville District, U.S. Army Corps of Engineers, P.O. Box 4970, Jacksonville, Florida 32232-0019

This letter does not obviate the requirement to obtain any State of local permits which may be necessary for your proposed work. You should check State permitting requirements with the Florida Department of Environmental Protection. A list of addresses of the appropriate State offices are enclosed for your information and use.

Thank you for your cooperation with our regulatory program.

Sincerely,

Lawrence C. Evans

Chief, North Permits Section
